## High Altitude

### Premium American Lager

This classic Premium American Lager is brewed with northwest-grown hops, premium barley, and crisp, clean Cascade mountain water. High Altitude is a tribute to those who are brave enough to battle the Thin Air, the Weak Knees, the Heart Beating out of your Chest, to get the thrill of the High Altitude! A stand-alone Premium American Lager from the Pacific Northwest, Hand-Crafted in the high altitude of the Cascade Mountains of Central Oregon. We crafted this lager with Premium American Pilsner Malt and American-grown Saaz Hops.

With a humbling amount of Rice and Water from the Highest Glaciers in the Central Oregon Cascades, this beer drinks light and refreshing! Whatever your adventure, when it comes to the High Altitude, we think of it as an attitude, not the altitude, because **"The Higher you get, the Higher you get!"**.... get it.

**4.9% ABV**

**12 IBU**

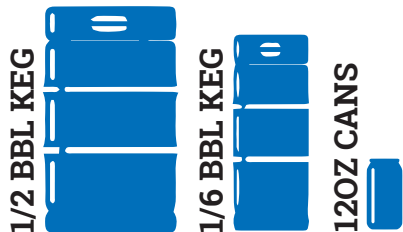

**11° OG**
